

Schools Direct Course Information

Finham Park 2

Finham Park 2 is a mainstream, non-selective, comprehensive school for students aged 11-18. The new academy is in its fourth year and will be an 11-18 school built on traditional values. Pivotal to this is a positive ethos and culture of learning and success for all students. We pay particular regard to outstanding achievement for all students whatever their academic starting point and a commitment to lifelong learning for all stakeholders. Pride, Respect and Responsibility are our key values and leadership and teamwork highly valued.

We offer a broad and balanced curriculum which will allow students to successfully work towards GCSE and A level qualifications. We have the highest expectations in terms of academic standards, a business-like approach in the way that students present themselves in terms of school uniform, being in school every day and on time.

We provide students with a safe and secure environment in which to learn and develop a team ethos from day one. The development of student leadership roles is key to developing young people who are confident, articulate and have a willingness to embrace new challenges.

Finham Park 2 embraces innovation and change, constantly evaluating all our work so that it meets the needs of our students. Our goal is to become a 'world class' academy; a place where all students develop a love for 'Learning for Life'.

At Finham Park 2 you will receive excellent training and a personalised support package as a new member of staff. We are committed to ensure that all trainees have a high quality, consistent experience. The programme will include support from the Teaching and Learning lead as well as a subject specialist mentor. Training and coaching provided will focus on developing your skills in the classroom as well as building your understanding of research based pedagogy.

We are a positive, friendly and supportive school that champions our fantastic young people. If you would like to find out more about us and the induction programme you would receive please do get in touch.

Subjects offered at Finham Park 2

English

Our English team is a very strong group of enthusiastic, creative and professional colleagues. Experienced in developing trainees and NQTs the team will offer high quality support for all new members. The department has a range of staff that bring different specialisms, experiences and passion for teaching. The English department often delivers whole school and MAT training, offering guidance on T&L techniques as well as subject knowledge to other colleagues.

Mathematics

The Mathematics team continues to expand to include a team of practitioners that work together to set high standards of teaching and learning across KS3 and KS4. A reflective team who bring a range of skills and experience to create an environment where a love of maths learning is valued. New colleagues will be fully supported and welcomed into the team as we continue to grow into KS5 as well.

Science

The Science department are currently the largest team in the school and include staff with experience across the range of Science subjects. Offering Triple Science as well as Combined at KS4 there are numerous opportunities for teaching across all subjects and ability groupings. In a growing school new colleagues are always welcomed from all Science backgrounds and subject specialisms.

MFL

The MFL department offers Spanish, French and Mandarin GCSE with further opportunities to teach other languages though extra-curricular clubs, for example Japanese. MFL is a very supportive department, all colleagues bring a range of experience, backgrounds and ideas to the school. There are lots of opportunities for learning outside the classroom and being part of the Mandarin Excellence Programme means we often have visitors in the department including Hanban teachers from China working with our students and Chinese teachers experiencing UK education systems via Warwick University.
